Play café "All in"

Open group for all children with and without special needs. We want to play, listen, laugh, crawl and climb together - each child according to his or her wishes and needs.

The focus is on positive experiences together! Playground equipment from psychomotricity and sensory integration encourage the fun of movement: swings, touch streets, seesaws, the ball pool and much more.

Our new play café is also a place where parents can recharge their batteries, exchange ideas and get tips for everyday life.

For parents with children from 3 months
